Contents of Volume 311

Vol. 311, Nos. 1–4 **September 15, 2005**

Continuous monitoring of water loading of trees and canopy rainfall interception using the strain gauge method
Y. S. Huang, S. S. Chen and T. P. Lin 1
Estimation of relative recharge sequence to groundwater with minimum entropy deconvolution
T. Kim and K.-K. Lee 8
Multi-criteria optimization of a regional spatially-distributed subsurface water flow model
G. Schoups, J. W. Hopmans, C. A. Young, J. A. Vrugt and W. W. Wallender 20
Calibration of an impedance probe for estimation of surface soil water content over large regions
M. H. Cosh, T. J. Jackson, R. Bindlish, J. S. Famiglietti and D. Ryu 49
Modeling stream–aquifer interactions with linear response functions
M. M. Hantush 59
Characterizing spatial and temporal variations in CO_2 fluxes from ground surface using three complimentary measurement techniques
L. K. Kabwe, R. E. Farrell, S. K. Carey, M. J. Hendry and G. W. Wilson 80
Incorporating subsurface-flow mechanism into geomorphology-based IUH modeling
K. T. Lee and C.-H. Chang 91
Application of spectral analysis of daily water level and spring discharge hydrographs data for comparing physical characteristics of karstic aquifers
M. Rahnemaei, M. Zare, A. R. Nematollahi and H. Sedghi 106
The role of lateral pipe flow in hillslope runoff response: an intercomparison of non-linear hillslope response
T. Uchida, I. Tromp-van Meerveld and J. J. McDonnell 117
Experimental study of turbulent unconfined groundwater flow in a single fracture
J. Qian, H. Zhan, W. Zhao and F. Sun 134
Spatial variability of surface roughness and hydraulic conductivity after disk tillage: implications for runoff variability
J. A. Gómez, K. Vanderlinden and M. A. Nearing. 143
Temperature as a marker for karstic waters hydrodynamics. Inferences from 1 year recording at La Peyrére cave (Ariège, France)
P. Genthon, A. Bataille, A. Fromant, D. D'Hulst and F. Bourges 157
Rainfall erosivity and variability in the Northern Ethiopian Highlands
J. Nyssen, H. Vandenreyken, J. Poesen, J. Moeyersons, J. Deckers, M. Haile, C. Salles and G. Govers 172
Objective segmentation in compound rating curves
A. Petersen-Øverleir and T. Reitan. 188
Studying the spatial structure evolution of soil water content using multivariate geostatistics
G. Buttafuoco, A. Castrignanò, E. Busoni and A. C. Dimase 202
Flow routing with unknown rating curves using a state-space reservoir-cascade-type formulation
J. Szilagyi, G. Balint, B. Gauzer and P. Bartha 219
Temporal changes in hydraulic conductivity of sand porous media biofilters during wastewater infiltration due to biomat formation
D. N. H. Beach, J. E. McCray, K. S. Lowe and R. L. Siegrist 230
High concentration suspended sediment measurements using a continuous fiber optic in-stream transmissometer
C. G. Campbell, D. T. Laycak, W. Hoppes, N. T. Tran and F. G. Shi. 244
A mass-conservative switching method for simulating saturated–unsaturated flow
X. Hao, R. Zhang and A. Kravchenko 254

doi:10.1016/S0022-1694(05)00405-1

Effects of suburban development on runoff generation in the Croton River basin, New York, USA
D. Burns, T. Vitvar, J. McDonnell, J. Hassett, J. Duncan and C. Kendall 266
Reactive transport modeling of calcite dissolution in the fresh-salt water mixing zone
M. Rezaei, E. Sanz, E. Raeisi, C. Ayora, E. Vázquez-Suñé and J. Carrera 282
Regression-based downscaling of spatial variability for hydrologic applications
G. Bürger and Y. Chen 299
